

## Introduction to the CreveTope system: Intensive shrimp farming with bioflocs Visit to shrimp farm in Belgium

**Date: 19 October 2022**

**Time: 08:30 till 18:00**

**Limit: maximum 25 persons – book early to ensure your place**

### Intro

CreveTec has built a shrimp farm in Ternat, only 15 km from Brussels, more than 100 km from the coast. This farm uses bioflocs to maintain water quality. The farm has a capacity to produce 4 ton of fresh *Litopenaeus vannamei* shrimp per year. All water is continuously and 100 % recycled for more than 6 years already. The farm started operation in April 2015 and is in full operation since September 2015.

The farm also has its own broodstock, maturation facility and larval rearing and is self-sufficient for the production of its own broodstock, postlarvae and produces his own feed.

### **Address of the seminar (and farm):**

Heirbaan 56A, 1740 Ternat, Belgium
